

NBSCIA's Guide to Davis WeatherLink

About the App

- Allows you to look up locations and names of Davis weather stations
- Data from Davis stations across the globe can be bookmarked and accessed
- Real time weather updates, with wind speeds updating every 2.5 seconds
- Data available includes: temperature, humidity, barometric pressure, wind direction, wind speed, wind gusts, precipitation accumulation over 24hr period, precipitation chance (%), and monthly cumulative precipitation
- Provides 7 day and hourly forecasts for the region where the station resides
- Provides visual graphs and diagrams depicting temperature, wind and rainfall for the day
- Provides historical high and low temperatures recorded by the station for that day and for selected years that the station has been operational

NBSCIA's Guide to Davis WeatherLink

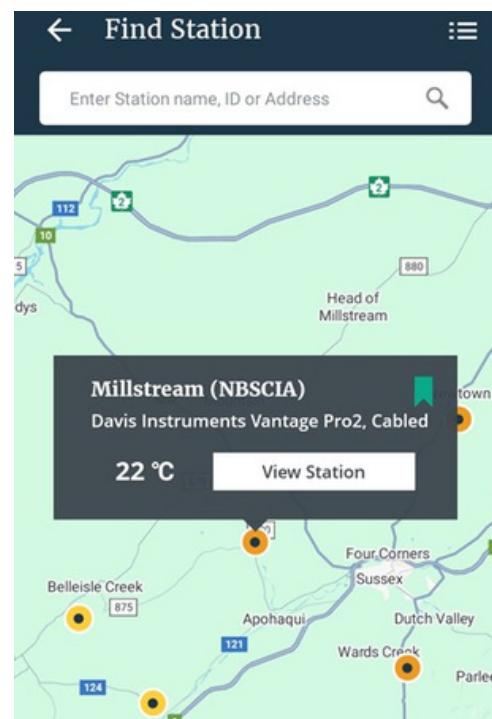

How to Dowload

- Download “WeatherLink” from your application store on your phone or tablet
- Create an account using your email address
- Add stations of interest by following the directions on screen or by using the + in the top left corner
- Station names can be entered in the search bar or found on the map with the “Location Results” tab
- Stations can be saved to the home screen by tapping the bookmark icon that will appear beside the station name
- Weatherlink can also be accessed on desktop/PC at www.weatherlink.com

A Preview of the App

Station Results		Location Results	
	Royalton (NBSCIA) Royalton, NB, CAN Davis Instruments Vantage Pro2, Cabled	23 °C	0.5 mi.
	House New_York, America, USA Davis Instruments Vantage Vue, Wireless	23 °C	2.4 mi.
	KG28 Good Corner, NB, CAN Davis Instruments Vantage Pro2, Cabled	24 °C	6.4 mi.
